

Purpose-Built Mobility for BladderScan i10™

BladderScan i10™ carrying case provides portable accuracy, optimized workflow and purposeful durability.

BladderScan i10™
verathon

Now Your Most Trusted BladderScan® Device Can Move With You

The BladderScan i10™ carrying case provides point-of-care mobility while helping protect, organize, and transport your system between care settings. Designed with clinician feedback in mind, the carrying case helps support workflow efficiency, infection control practices, and day-to-day durability across clinical environments.

Portable Accuracy

Keep your BladderScan i10 protected, organized, and ready wherever care takes you. Designed for clinicians on the move, the carrying case helps reduce setup time and keeps your system close at hand.

- Adjustable shoulder strap for hands-free transport
- Keep the system charged while stored
- Move easily between care settings

Optimized Workflow

Help keep patient flow moving efficiently with quick access to your system and essential supplies. Everything you need stays organized and ready when you need it.

- Connected probe for immediate access
- Dedicated storage for gel and wipes
- Reduce downtime between patients

Purposeful Durability

Built to support the demands of everyday clinical environments. Cleanable surfaces and durable construction help protect your system during transport and routine use.

- Cleanable interior and exterior surfaces
- Supports infection prevention protocols
- Built to withstand multiple drops (MIL-STD 810H) and dripping water (IPX1)

Ready to make your BladderScan i10 truly mobile?
